

# ANSHUMAN KUSHWAHA

Full-Stack Developer (MERN Stack) | Software Development Intern Candidate

Lucknow, India | [9410447618](https://www.linkedin.com/in/anshuman-kushwaha-3a383240b) | [anshumankushwaha2005@gmail.com](mailto:anshumankushwaha2005@gmail.com) | [github.com/anshumankushwaha-2005](https://github.com/anshumankushwaha-2005) | [linkedin.com/in/anshuman-kushwaha-3a383240b](https://www.linkedin.com/in/anshuman-kushwaha-3a383240b)

## PROFILE SUMMARY

Third-year Computer Science student specializing in the MERN stack, with hands-on experience building and deploying full-stack web applications, including AI-integrated projects. Skilled in JavaScript, Python, and REST API development, with a track record of independently shipping 4+ production applications. Seeking a Software Development / Full-Stack Development internship.

## SKILLS

**Technical:** MERN Stack (MongoDB, Express.js, React, Node.js), JavaScript, Python, Java, SQL, REST APIs, JWT Authentication, Tailwind CSS, Git/GitHub, Socket.IO, Chart.js

**CS Fundamentals:** Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP

**Soft Skills:** Problem-Solving, Analytical Thinking, Debugging, Communication, Collaboration, Time Management

## EDUCATION

### B.Tech, Computer Science & Engineering

2023 – Present

AKTU University, Lucknow

Senior Secondary (Class XII): 70.8% | Secondary (Class X): 84.5%

## WORK EXPERIENCE

### MERN Stack Intern — SRDT Pvt. Ltd.

June 2026

- Built and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js with responsive UI design
- Developed RESTful APIs with error handling and input validation, integrating frontend and backend seamlessly
- Implemented JWT-based authentication and authorization for secure user management
- Collaborated in an agile environment using Git/GitHub for version control and code reviews
- Debugged and optimized application performance through iterative testing, profiling, and code reviews

### Python Full Stack Intern & Trainee

September 2025

- Gained hands-on experience in full-stack Python web development using the Django framework
- Built dynamic web applications combining HTML, CSS, and JavaScript frontends with Python backends
- Implemented CRUD operations and database integration across multiple application features
- Contributed to real-world projects, strengthening debugging and problem-solving skills

## PROJECTS

### NutriAI — AI-Powered Nutrition Tracker

[GitHub](#) | [Live](#)

React, Node.js, Express.js, MongoDB, JWT, Chart.js

- Built a full-stack nutrition tracking app for logging meals and monitoring macronutrient intake
- Integrated AI to generate personalized diet and exercise recommendations based on user fitness goals
- Designed a responsive React frontend with Chart.js data visualization and a scalable Node.js/MongoDB backend

### Codepilot — AI-Powered Code Assistant Platform

[GitHub](#) | [Live](#)

MERN Stack (React, Node.js, Express.js, MongoDB)

- Built a full-stack MERN application to help developers navigate and understand codebases using AI-assisted analysis
- Implemented AI-powered repository analysis and code correction with intelligent fix suggestions
- Designed an interactive React frontend and a Node.js/Express + MongoDB backend with RESTful APIs
- Deployed to production on Vercel

### Credlink — Digital Credit Ledger

[GitHub](#) | [Live](#)

MERN Stack (React, Node.js, Express.js, MongoDB)

- Built a full-stack MERN application for digitally tracking and managing credit/lending transactions
- Built an NLP-powered voice interface enabling merchants to log and query transactions hands-free via voice input and voice response
- Developed an intuitive React ledger UI and a secure Node.js/Express + MongoDB REST API backend
- Deployed to production on Vercel

## CERTIFICATIONS & ACHIEVEMENTS

- Completed Python Full Stack Internship & Trainee program with hands-on project experience
- Independently built and deployed 4 full-stack MERN applications with AI integration

## LANGUAGES

Hindi, English
